## About The Conference

The 3<sup>rd</sup> International Conference on Geology: Emerging Methods and Applications (GEM-2023) will be held at Christ College Autonomous, Irinjalakuda, Thrissur, Kerala during January 23- 25, 2023. The conference aims to bring novel and exciting questions and topics for future research to students of post graduate and research, enabling them to choose their interests from an array of disciplines within Geology. GEM conference series have been unique in its objective of bridging the gap in research and education between the leading National and international Institutions with State Universities and Colleges. GEM 2023 will provide a unique scientific and technical platform to share the research experiences among the eminent academics, scientists, geologists, young researchers and professionals from all over the country engaged in different fields of Geology.

## Scientific Sessions
