“The project initiates with short-term joint staff training event in Spain, focusing on strategy alignment, protocol testing, and technology and methodology evaluation, utilizing advanced equipment from each partner. A key component is the blended mobilities of higher education students, targeting a diverse group of 20 to 35 participants from various educational and professional backgrounds, including undergraduate, master's, PhD students, post-docs, and professionals. This approach aims to encompass a wide cultural spectrum.”

Dear Partners

I am sending here a formal invitation to participate, online or in presence, to the meeting organised on the 22nd of November at Tarragona, at the Department of History of the University Rovira i Virgili, Campus Catalunya, 43002, Tarragona. **11 h (10 h Cyprus).**

With a paper concerning the *Protocols, the technologies and the preliminary results you got in this first year of Project (15-minute presentation)*.

Presentations online or in presence are welcomed, please let me know the title of your presentations.

Prof. Joaquín Ruiz de Arbulo
