ABSTRACT

Begin text of the abstract here.

Instructions:

Abstracts falling in any of the subjects of the designated Conference sessions can be submitted on this fixed format. They should have a length **between 200 and 400 words** and briefly explain the problem, objectives, results and conclusions. This information will help the Scientific Committee to understand the work involved and to evaluate each paper suitability as oral or poster presentation.

Papers addressing the suggested themes will be welcome especially those regarding the issue of local stones used as imported marbles substitutes and the implications of the use of certain stones.

Please indicate at the bottom of your abstract sheet:

1. for which designated session your abstract should to be considered
2. if you prefer it to be a poster presentation.

For submission: The text should be on 10 characters per inch letter, type **Times New Roman**. Text must not exceed the bottom line.

The abstract page will be printed following the offset system, thus the authors are kindly requested to follow precisely these instructions.

No writing below this line.
